# BAK'S ADVOCAAT

**Advocaat** was created in the Art Deco period by Jerzy Junker, who was an owner of distillery that specialized in superior vodkas and liqueurs in Silesia, Poland. As everything from that era, **Advocaat** had worthily represented the luxury, glamour, and exuberance style.

Today, creamy and velvety **Advocaat** still continues to represent the highest quality in the liqueur industry. Based on the traditional recipe, neither bitter nor excessively sweet, it is a connector of modern style, fine craftsmanship and rich and potent natural ingredients: fresh eggs yolks, Madagascar vanilla extract, and exquisite spirit.

**Bak's Advocaat** is a warranty of unforgettable tasting experience and unique qualities which became a specialty that bewitches not only ladies but also gentlemen.

Great for celebrations, casual events, gifts and fine desserts.
